

"High in the Andes Mountains is hidden the monastery of the Seven Rays. Ancient truth and knowledge from highly evolved culture have been stored there by the Masters for thousands of years. The children of the earth will receive this heritage at the time of their spiritual reawakening.

Those pilgrims who seek spiritual illumination and guidance from now on will be drawn to South America as they have been previously drawn into the Orient. To this end, the directors of the Forces of Nature and the Elemental Kingdom are making preparation toward providing a natural means of access to this higher, untapped spiritual Focus of Illumination in the Andes Mountains of Peru."

## **WILLARU SHARES THE BENEFIT OF SACRED PILGRIMAGES**

The sacred sites and mountains around the world become portals from the spiritual dimension to this dimension. People are called to these places where all the great Masters manifest to help us, and bless us and awaken us. When we come with an open heart, we learn to be tranquil in these places. These blessings come especially for people who come in sacred pilgrimage. A sacred pilgrimage will have more benefit, because we take our time, and meditate in these places, and the Masters have time to bond with us.
